TOP O' THE TABLE

We are committed to providing solutions to all your foodservice needs.

CARLISLE COMPARTMENT TRAYS

Carlisle offers the largest variety of sizes and compartment combinations. The 6-compartment trays hold government "Type A" lunch. These trays offer a greater variety of serving combinations with three smaller upper compartments, two larger lower compartments, and a flatware holder on either side. Trays are available in melamine, polycarbonate, ABS, and polypropylene. All materials are FDA approved.

SIX STAR 6 FT. LOW PROFILE YOUTH SALAD BAR 6608

- NSF Listed bars are filled with foam to keep correct temperatures
- Overall height is only 45.5 inches
- Wider sneeze guard offers better coverage
- Textured finish resists scratching
- Recessed 5" non-marking swivel casters
- Optional tray slides and end shelves
- BPA free

COLDMASTER CROCK & ORGANIZER CONDIMENT SET CM1058-02

- CM1069 3-crock organizer, order separately or as set with crocks, lids, and pumps
- Use with 2 qt Coldmaster® Coldcorks to set up a condiment/topping station
- Coldcrock maintains 40°F or lower for eight hours (up to twelve hours with lid)
- Made of sturdy, high-impact plastic
- BPA free

DELFIELD CONCEPTS™

Concepts™ is a leading-edge solution that breaks the mold on traditional serving lines.

Start by using standard components. Add options, accessories and finishes that meet your needs. End with a serving solution that has the look and feel of a custom solution but without the custom price tag. That's the Concepts line by Delfield. It's a whole new wave of serving line equipment.

Drop-In Options

The complete array of Delfield drop-ins are available to drop into the Concepts line. This includes ice cooled cold pans, hot food wells, mechanically cooled cold pans, Delfield's patented LiquiTec® technology, frost tops and combination units. Creating the perfect serving counter has never been easier.

Delfield

TOP O' THE TABLE

We are committed to providing solutions to all your foodservice needs.

OES-6.10 CONVOTHERM "THE MINI" 2IN1 COMBI OVEN STEAMER

2in1 Combi Oven Steamer - Boilerless Electric Steam

Cleveland Model: OES 6.10 mini 2in1 Combination Convection Oven / Steamer with simple to operate programmable controls for Hot Air, Convection Steam, and Combination cooking modes, "Cook & Hold" and "Delta T" slow-cooking capabilities, "Advanced Closed System" with "Crisp & Tasty" de-moisturizing feature. Multiple cooking stage programs, stored recipe library, multipoint core temperature probe, "Press & Go", one-step recipe start buttons, boilerless. Capacity for three (3) - 12" x 20" by 2 1/2" steam table pans per compartment.

SHELLY GRAB AND GO

Asm Series - Drop-In Refrigerated Air Screen Merchandiser

This merchandiser features an all glass display area and top slim line fluorescent lighting to showcase product. The bottom shelf is a recessed pan, perfect for bottles or taller items. There are three 1" adjustable glass shelves with fluorescent lights standard and a slide out condensing unit that allows for easy serviceability.

For more information call Amy at 800.492.7400

JACKSON CREW 66 DISHWASHER

Crew 66

The CREW 66 features a 44" wash zone and a 22" pre-wash. The 22" pre-wash uses the power of four wash arms (three upper and one lower) to remove and isolate the majority of food soil before wares enter the wash zone. The patented Rainbow Rinse™ uses an industry leading .32 gallons of water per rack reducing water, chemical and energy costs. WISR™ Cleaning System provides One-Pass cleaning.

Boost your savings on energy • water • chemicals

COLDSTIK FOOD PRODUCT SIMULATOR

Helping ensure quality, safety and the life of frozen and refrigerated products, reducing the risk of food spoilage, shrinkage or loss.

The ColdStik™ is a Refrigerator/Freezer Food Product Simulator is a standalone thermometer to measure food temperature, rather than just circulating air temperature. The ColdStik contains a silicon-based gel that takes on refrigerated temperature exactly like food. It simulates food product temperatures in changing ambient conditions and provides accurate product information to support your food safety program.

TEMPTRAK

TempTrak wirelessly monitors all types of equipment: walk-in and reach-in refrigerators and freezers, open air display cases, salad/deli bars, hot holding cabinets and dishmachines

Take temperatures and humidity readings of your equipment every 5 minutes 24/7 without lifting a finger. TempTrak. No need for external power or network connectivity with the battery-powered TempTrak sensors. Temperatures are wirelessly transmitted to the TempTrak software which collects and records every temperature.
