Subject: Energy Star Listing

Number 2011-8

As part of Delfield's commitment to providing its customers the most versatile equipment designed to meet its customer's operational needs, and striving to provide its customer's the lowest total cost of ownership, **Delfield announces that over 900 models are Energy Star listed.**

Delfield' has made a substantial investment in designing and manufacturing Energy Star compliant products that will reduce operating costs for its customers.

Some of the products that are now Energy Star compliant and listed on Energy Star's website are:

- Undercounter Refrigerators
- Undercounter Freezers
- 6000XL Reach In Refrigerators and Freezers
- Specification Line Reach In Refrigerators and Freezers
- Worktop Refrigerators
- Worktop Freezers

The most up to date and official list of Delfield Energy Star Products can be found at the Energy Star website, http://www.energystar.gov/index.cfm?fuseaction=find_a_product.showProductGroup&pgw_code=CRF

In addition many local utilities offer substantial rebates for the purchase of Delfield Energy Star compliant products. This information is available from local utilities or at the Energy Star website.

http://www.energystar.gov/index.cfm?fuseaction=CFSrebate.CFSrebate_locator_submit

Energy Star has also provided a simple to use Energy Saving calculator that easily calculates the energy savings that can be realized in addition to the rebates that may be available from local utilities.

http://www.energystar.gov/index.cfm?fuseaction=find_a_product.showProductGroup&pgw_code=CRF

Energy Star products are another great reason for customers to purchase and specify Delfield products and realize the cost savings and a low total cost of ownership.
