

EverKleen stands up to even our messiest customers!

Kolpak offers an almost never-ending line of panel finish options from galvalume to 304 stainless steel, in a variety of gauges with smooth or embossed finishes. Included in this offering is **EverKleen**, a diamond patterned 304 stainless steel finish ideal for use in high end kitchens.

Nothing is more appealing than a smooth stainless steel kitchen. Unfortunately, the smooth finish is highly subject to smudges, dents and fingerprints. The diamond pattern in the **EverKleen** finish tends to hide these imperfections providing a beautiful stainless appearance longer than the traditional smooth finish.

Kolpak's **EverKleen** is immediately available in 20 and 22 gauge Type 304 Stainless Steel. Call your assigned Kolpak Customer Service Representative today! **800.826.7036**
