

Green Family of Fryers

Our **Green** Fryers are Easy on the Environment and Your Bottom Line

Frymaster H55 Gas Fryers

Frymaster E Series Electric Fryers

Satisfy customers with great-tasting food

Frymaster Protector Fryers: gas and electric

And Qualify For Energy Saving Rebates and Programs

Frymaster's **GREEN** Family of Fryers offers "**GREEN**" benefits two ways: They go easy on the environment and your bottom line. **GREEN** fryers have efficient heat-transfer systems that use less energy and extend oil life, reducing energy use and oil waste. A corollary benefit is cost savings from a smaller outlay for energy and oil. And, to boot, by exceeding federal ENERGY STAR® efficiency ratings, the Frymaster and Dean high-efficiency fryers qualify for energy saving rebates from local/regional/state governing bodies and utility companies. All these benefits come while producing **GREAT-TASTING FOODS** that **SATISFY CUSTOMERS** and **KEEP THEM COMING BACK**.

Frymaster's GREEN Family of Fryers Meets Energy Initiative Standards					
	ENERGY STAR™ ES	Leadership in Energy Environmental Design LEED	Consortium for Energy Efficiency CEE	Manitowoc EnerLogic®	Utility Rebateable**
Frymaster Protector® (Gas & Electric)					
Frymaster E4 Series RE (Electric)					
Frymaster H55 (Gas)					
Dean HD50 (Gas)					
Dean HD60 (Gas)					

- * The Manitowoc EnerLogic program is specific to Manitowoc foodservice equipment. Over 1,000 products meet the program's requirements.
- ** There are many state and local rebate initiatives available for commercial kitchen operators. One requirement for most, if not all, of these programs is that the appliance meet or exceed ENERGY STAR guidelines.
- *** Industry standard not yet defined for large capacity fryers.
