Models BS, CSP, BSB-2, BSB-3 & INS

**BEVERAGE STATION <sup>5</sup>/<sub>16</sub> OZ BS 81030**

**TRIPLE WALL-MOUNT SHELF BSB-3 80075**  
(InSeason™ Dispensers sold Separately)

**QUAD WALL-MOUNT SHELF BSB-4 80076**  
(InSeason™ Dispensers sold Separately)

## BID DESCRIPTION

The Beverage Station is ideal for dispensing chilled cream and other dairy products and various granular sweetener brands into cups of coffee, particularly at the drive-thru window. Unit comes complete with an EZ-Cream™ Dairy Dispenser, (3) InSeason™ Sweetener Dispensers and held together with a stainless steel stand.

The EZ-Cream™ Dairy Dispenser 94160 utilizes thermoelectric technology to chill a 2 quart (1.9 L) removable food vessel. It features an integrated discharge tube chiller block, which ensures food is kept at a safe serving temperature for the entire holding and serving process. In operation, the EZ-Cream™ Dairy Dispenser holds product consistently below 41°F (5°C) in up to 86°F (30°C) ambient temperature. Specialized discharge valve keeps cream from splashing. The EZ-Cream™ Dairy Dispenser is customized to dispense a <sup>5</sup>/<sub>16</sub> oz (9.2 mL) portion per stroke which is equivalent to the common creamer packet but can be portion adjusted.

The InSeason™ (INS) Sweetener Dispensers have a 10 oz (296 mL) capacity and have different color coded portion triggers for easy brand identification: pink for Sweet 'N Low®, blue for Equal®, yellow for Splenda® and green for sugar. Pink, blue & yellow have a <sup>1</sup>/<sub>3</sub> tsp (1.64 mL) portion per compression which is equivalent to a packet of sweetener and green has a <sup>1</sup>/<sub>2</sub> tsp (2.46 mL) portion which is equivalent to many common size packets of sugar.

Wall-mount shelves for holding InSeason™ dispensers are also available. The BSB-3 and BSB-4 hold 3 and 4 InSeason™ dispensers respectively.

## STANDARD FEATURES

- EZ-Cream™ Dairy Dispenser is NSF listed for potentially hazardous food including dairy; NSF Standard 18 & 20
- EZ-Cream™ Dairy Dispenser dispenses <sup>5</sup>/<sub>16</sub> oz (9.2 mL) portion per stroke
