

Cutting High Beef Costs With Turkey.

How often can you offer your customers delicious, on-trend menu items and save money at the same time? Make it with turkey! We've got the incredible products that make it easy. And with nearly half of those surveyed saying they would order beef less often if the prices were to rise, and 40% saying they'd love to see more turkey on the menu*, there's never been a better time. Not only is turkey versatile and delicious, but it's an incredibly economical choice compared to beef.

JENNIE-O® Raw Ground Turkey

Substitute raw ground turkey for ground beef, or mix it 50/50 in ground beef recipes to help manage costs and add value. When used in a recipe, many consumers actually prefer it to ground beef. Use it for tacos, chili, spaghetti sauce, and so much more.
