

Easy to Prep, Easy to Sell.

Corn Dogs, Pop Dogs and Pancake Wraps all heat quickly and hold their flavor and texture well under heat. We recommend Pop Dogs be heated from frozen (not thawed) state and that Corn Dogs and Pancake Wraps be heated from thawed (not frozen) state. When thawing Corn Dogs and Pancake Wraps follow these simple steps:

- Take the amount you need from the freezer, thaw completely under refrigeration for 24 hours.
- Thawed product shelf life is 12-14 days for regular Corn Dogs and 7 days for flavored Corn Dogs when held under 36°F in original package or clean container.
- Then heat a batch in your preferred equipment.

Heating Instructions

Heat to an internal temperature of 160°F. Heating time will vary by equipment and quantity of product prepared. Make adjustments to the time accordingly.
