Pebble™

Expected Availability March 2013

Pebble lamps emit a warm natural soothing glow through a mosaic of amber colored glass. The three lamp sizes will create a beautiful banquet or lobby table centerpiece.

Individual sizes give the table setter choices for filling vertical space.

The new large cylinder size, measuring 6 inches tall, answers the common request for taller table lamps.

Low Craftsman™ Frame

Expected Availability February 2013

in: 2H x 3½Sq. mm: 51H x 89Sq. (Wt. .5#)

The Low Craftsman Frame is a sturdy wrought iron base made to fit the Hollowick Quad™ Votive and Satin Crystal 67SC globe. Black powder coating helps to protect the metal frame from oxidation and wear. The unique Prairie Style design makes a vintage, rustic statement.

Pixel Tealights

Expected Availability March 2013

in: 3H x 2 1/4 Dia. mm: 76H x 73Dia. (Wt. .9#)

An intriguing sculptured form, the new Pixel Tealight Lamp has a mesh-like textured exterior that pixelates candlelight as it passes through. The resulting effect is a sparkling display that is both mesmerizing and beautiful.

HOLLOWICK'S
XtremeHeatTM

XTREME WICKTM CHAFING FUEL

XtremeHeatTM

Available now

PLEASE CONTACT YOUR HOLLOWICK DISTRIBUTOR FOR PRICING

Hollowick's new 4-Hour Xtreme HeatTM Liquid Chafing Fuel offers maximum heat output with all the safety benefits of liquid fuel.

High Heat

The unique "X" design of the trademarked **XTREME WICKTM** allows for a larger, hotter flame compared to most liquid wick fuels.

Safe

Xtreme HeatTM is non-hazardous by D.O.T. standards so you'll have no shipping or storage restriction worries.

The fuel, Diethylene Glycol (DEG), is categorized in the same non-flammable class as vegetable oil (NFPA Class IIIB Combustible Liquid). Unlike gel fuel, Xtreme HeatTM fuel will not burn without a wick.

Odorless

Xtreme HeatTM burns odorless so you smell the food, not the fuel.

Consistent

The external **XTREME WICKTM** wick position offers a more consistent burn compared to gel fuels.

Easy to Use

Simply pop the top and light the quick-lighting center wick. The top may also be replaced for reuse.

TruFlame™ Outdoor Flameless LED Pillars

Expected Availability April 2013

Smart Candle TruFlame™ Outdoor Flameless LED Pillars are built for severe commercial use including outdoor exposure. The durable plastic body can withstand heat from direct sunlight and each candle has a top drain hole to help eliminate pooled rain water. The Outdoor Pillars offer dual timer/remote functionality and Smart Candle TruFlame technology for the most realistic flame color and flicker available. Powered by 2-D batteries, candles last 6 to 8 months in service per battery change.

Drain Hole helps eliminate pooled rain water, drains through the bottom.
