

HOMEWORK GUIDELINES

Daily assignments

- ❖ Read 20 minutes and log time on sheet weekly and get signed by parent
- ❖ Math homework in the form of a worksheet or assignment from the book will be assigned every night, with the exception of Fridays and the night before a test.
- ❖ LA worksheet page will be assigned daily and due the following day.

Tests

- ❖ I will always try to give at least 1 week notice for a chapter test in all subjects and I usually never give a test on a Monday! The students will write this down in their agenda so there are no excuses ☺.

Projects

- ❖ I usually like to do projects in class because I like to get a true reflection of the student's ability. However, if I do assign a project it will be limited to one per quarter. I will provide ample time to complete this and I will always provide the grading rubric (guidelines) when the project is assigned.

Book Reports

- ❖ In addition to the monthly reading log, the students will need to complete a book report each quarter. The book reports will be completed in class. Some of them may also include an oral presentation. The instructions will be handed out and the rubric for each plenty of time before the due date. Please see the sleeve in your agenda for each quarter's genre.

Other

- ❖ Science homework will be assigned periodically to complete the chapter review that the students have begun in class. The students will also have to study for Science tests.
- ❖ Social Studies reflections to questions will be assigned periodically and to complete the chapter review. The students will also have to study for tests.
