

P² Collaborative of Western New York Communication Policies

The P² Collaborative of Western New York is a not-for-profit organization dedicated to improving the health of people in Western New York.

P² has, on occasion, been asked to post articles and event announcements to the P² website. P² has also been asked to share these announcements and articles with our partner distribution list via e-mail.

We recognize the value in sharing these announcements with our partners. However, we recognize there are limits to what we reasonably accommodate and limits to how much news our partners are willing to view and receive. As a result of these concerns, we have created the following policies.

E-mail Announcement Policy

Announcements will be sent via the P² partner distribution list **if, and only if**, they are sponsored in part by the P² Collaborative of Western New York.

Website Announcement Policy

At the discretion of P², announcements on the P² website may be available to organizations who are promoting events/activities within the healthcare realm. In order to have information considered for posting, the following conditions must be met:

- The organization making the announcement must be a P² partner organization.
- The announcement must align with the vision and mission of the P².

Announcements displayed on the website are subject to space availability; placement of an announcement is the discretion of P².

Website announcements may be posted at any time and are not subject to frequency limitations.

P² Coalition Chairs may post to the website, at any time, articles or agendas pertaining to their respective committees

Procedure

Parties interested in posting an announcement on the website will be asked to place their request through the www.p2wny.org website. A form for requesting an announcement will be available on the website at www.p2wny.org/contact/

Privacy policy changes

This policy was created on February 22, 2010.
